Re: Washington CAN Activities on Swedish Medical Center - Cherry Hill Campus

This law firm is notifying you and the Washington CAN organization **that you shall immediately cease and desist** all activities on the Swedish Medical Center Cherry Hill Campus. Such actions include, but shall not be limited to, actions taken by Washington CAN representatives on January 27, 2015, whether intended or not intended, to harass hospital staff, patients and visitors, handing out any form of communication to hospital staff, patients or visitors, and speaking to any hospital staff, patients or visitors on any subject.

Our patients and families are highly vulnerable, and often dealing with severe anxiety. The failure of your organization to abide by this notice will result in immediate legal action by this firm to obtain a King County Superior Court order prohibiting the conduct referenced above. In addition to strenuously pursuing a restraining order against you and your organization, my client will also seek damages, including, but not limited to, attorneys' fees expended to obtain compliance with this directive.
