WASHINGTON VOTER SURVEY

Crosstab Results | September 2011

PREPARED BY STRATEGIES 360

# STATEMENT OF METHODOLOGY

Strategies 360 conducted a telephone survey of 500 voters in the state of Washington who indicated it was likely they would vote in the November 2012 General Election. 400 of these interviews were determined to be likely to vote in the November 2011 General Election. Interviews were conducted September 11 – September 14, 2011 by American Directions Group of Spokane, Washington, a market research firm specializing in telephone survey interviewing. Respondents were randomly selected from a list of Washington voters, purchased from Voter Contact Services, who registered after the 2010 General Election or voted in either the 2008 or 2010 General Elections.

The margin of error for a survey of 500 interviews is  $\pm 4.4\%$  at the 95% confidence level. The margin of error for the 400 interview subsample of likely 2011 voters is  $\pm 4.9\%$  at the 95% confidence level. The margin of error is higher for other subsamples. Other sources of error not accounted for by the stated statistical margin of error include, but are not limited to, question wording, question order, and refusal to be interviewed.

Please tell me how you would vote on this proposal. This measure concerns dedicating funds designated for educational purposes. It would create an education trust fund for smaller classes, extended learning programs, certain salary increases, preschool access, and expanded college enrollments and scholarships, funded by increasing retail sales tax by 1%. If the election were held today, would you vote in favor or against this proposal?

The state of Washington is facing a budget deficit of over \$1.5 billion. As you may know, the legislature can reduce this budget deficit by cutting spending, raising taxes, or a combination of the two. Ideally, how would you prefer to see the legislature attempt to reduce the state of Washington s budget deficit?
