Dear Wayne:

In response to your letter request of December 12, 2017, Facebook is providing the enclosed supplemental information, in addition to the data provided on February 2, 2018.

In the attached you will find the following information for the Pages you previously identified for us:

- Page Name
- Page URL
- For each advertisement run by the Page between Jan 1, 2017 and Nov 7, 2018:
  - Text and image or video
  - Number of impressions
  - Amount spent
  - Demographic and geographic information of audience reached
  - Start and end dates

We are also providing an amended version of our original response of February 2, 2018, correcting a typographical error in which the “total spend” for Jenny Durkan for Seattle inadvertently displayed for the People for Jenny Durkan as well.

If you have any further questions about the data provided, we would be happy to schedule a time to discuss it with you at your convenience.

We continue looking forward to working with the SEEC to promote increased transparency and accountability in political advertising.

Please don't hesitate to let us know if you have any questions.
