Subject: RE: Thank you

David,

I am glad that we had the chance to meet. Thank you for taking the time.

Unfortunately, the Times article was not correct. While we did share Ingraham's test scores since we were getting questions about the school's performance, I never said that these scores were the reason for my decision. They were not. Additionally, I never spoke with Katherine Long so I am puzzled why she would attribute any quotes on this matter to me.

I have not, and will not, reveal the information that was part of the evaluation process and eventual decision. I am legally bound not to do so.

I share your commitment to serving our students as best we can and I appreciate all that you do.

I look forward to seeing you next week.

Susan
