Reproductive Freedom SCORECARD

ABOUT NARAL

NARAL Pro-Choice Washington is the leading grassroots pro-choice advocacy organization in Washington state. We work to protect and expand every individual's right to access the full range of reproductive healthcare options, including preventing unintended pregnancy, bearing healthy children, and choosing legal abortion. NARAL Pro-Choice Washington is the state affiliate of NARAL Pro-Choice America.

Our 35,000 members statewide advocate for proactive reproductive freedom policies and depend on information like that contained in this 2016 Legislative Scorecard report to inform their advocacy.

WHY NOW?

Despite the sense that Washington is doing just fine when it comes to reproductive freedom, for years, our state has failed to move progressive pro-choice, pro-woman policies forward. NARAL's scorecard grades legislators on many factors to go beyond box-checking and reveal who is truly standing with women as a pro-choice champion, and who is standing in the way.

METHODOLOGY

All legislators were scored on their participation in the 2016 session. Grades take into account votes and co-sponsorship of bills that positively or negatively impact women's reproductive choices. Grades also factor in public comments, floor speeches, press & social media engagement, and advocacy in Olympia and in district for policies that promote reproductive freedom. Champions for choice do more than just vote; they fight every day for the women of Washington.

CRITERIA FOR 2016 LEGISLATOR GRADES

Sponsorship & Votes

Sponsoring and voting on bills that protect or improve access to a full range of reproductive healthcare services, including abortion access, across our state. Negative points were given for sponsoring or voting on bills or amendments with negative implications for women's health.

Legislative Champion

Champions for choice do more than just cast votes. They actively work to ensure women's equity by guaranteeing that women have control over their own reproduction and are supported when they parent.

Community Engagement

Scores reflect legislators' engagement with constituents, NARAL members, and the pro-choice community in actively promoting reproductive freedom.
